BRAEZ SPRING SUMMER 2016 COLLECTION

The central idea behind Braez is to provide clothing that is made of the softest fabrics of the planet, for superlative easy and comfort, timeless and effortlessly elegant styles that are appropriate in every aspect of a self-aware woman's life.

The collection named the message "Behind the clothes, is the voice of the heart." includes natural fibers such as silk, wool and cotton, which offers both the comfort and the elegance that the modern and stylish Braez women always need. Decorations - laces, feather-like materials, nets and hand-made felt- added to the tight fitting and warm textured pieces complement the **BRAEZ** look.

The designs, which employ bright touches to dark colors such as cream, blush, sky, lilac, silver, earth, sun, grass, jean are up for becoming among the essentials of wardrobes of women who want to look feminine without considering comfort, go by their daily routines and multi-task in the best way possible.
